Holiday snaps

Connor had been on holiday with his mum and dad and his big sister Gemma. It was the first time he had been on a plane to another country. Granny and Grandad had given him a camera to take some pictures. Here is a page from his photo album.

I liked flying on the plane to Spain. When I looked out of the window we were over the Isle of Wight. We were on the plane for about two and a half hours. I was very excited when we landed in Spain.

We stayed in a lovely house that is called a villa. There was one bedroom for Mum and Dad, one bedroom for Gemma and one for me! In the garden was a swimming pool just for us. I went for a swim every day.

There was a stone table near the pool so we had our meals outside nearly every day. There were high palm trees near the table.

There was a lovely beach and a very big rock near our villa. I thought the rock looked like a shark with a great big mouth. We had fun playing on the beach.
